

## The NIH Public Access Policy: Compliance & FAQs A **NURAP AT NOON** EVENT

**Pamela Shaw, MSLIS, MS**  
Biosciences & Bioinformatics Librarian

“How do I get a PMCID for my (or my PI’s) paper? Why didn’t the journal take care of this for me? What is MyNCBI?” If you have questions like these, or any other questions related to the NIH Public Access Policy, this session will help answer those questions. We will discuss the ways in which papers receive PMCIDs, who is responsible for compliance, what consequences can arise from non-compliance, and how to generate biosketches using the new ScienCV tool from MyNCBI.

### Chicago

Wednesday, February 11, 2015  
Hughes Auditorium
